

“The City Built for Family Living”

Finance Department

June 30, 2016

Mayor and City Council Members:

The Finance Department is pleased to submit the Unaudited Monthly Financial Report for the month of May 2016. We received 6 responses to the RFP for Audit Services for FY 2016, they will be evaluated by the Audit Committee.

Total revenues exceeded expenditures in all of the major funds of the City with the exception of the Golf Course Fund. The Golf Course operating expenses exceeded operating revenues by \$158,744. The fund collected \$17,849 of the budgeted revenues in May 2016. The General Fund continues to cover the deficit for the Golf Course Fund, and City staff continues to monitor the expenses in the Golf Course Fund.

The key economic indicators provide some insight for the financial activity of the City. The Finance Department estimated the revenue for sales tax for the month of May 2016, because sales tax reporting experiences a two (2) month lag. Sales tax revenue collections Year-To-Date decreased by \$29,080 in comparison to the prior year. The number of active water utility accounts showed an increase of accounts in comparison to the number of active accounts as of May 2015. The unemployment rate in the City showed a decrease in comparison to the percentage as of May 2015. City staff will continue to monitor revenues and expenditures in all City funds and evaluate the impact of key economic indicators on the City's financial position.

We hope regular monitoring of the City's financial position will continue to provide the City Council with information that is useful for making sound policy decisions.

Respectfully submitted,

Velia Key  
Director of Financial Services

## Economic and Market Commentary: Fed stays close to the vest; money funds show their cards

June 1, 2016

Mind the Federal Reserve. The market is finally doing so with Brexit, remembering that it is the D.C. Metro that leads to what's important, not the London tube. Those obsessed with the possibility Britain will leave the European Union are realizing the Fed may not be. It's led to a remarkable swing in sentiment, with the market moving from as low as a 5% probability that the Fed will raise rates in June to now around about five times that, and more than 50% probability for a move in July. The shift started midmonth with the release of the April 27 Federal Open Market Committee (FOMC) minutes. These revealed more discussion about a hike than did the original, vague statement. A parade of Fed officials followed, seeming to prepare the market for action, even though the next meeting brushes up against the Brexit vote. The last was Chair Janet Yellen's pre-Memorial Day weekend remarks that a hike could be "appropriate in the coming months."

A hike in summer is a position we have taken for some time, primarily because we take the Fed at its word that it looks at the long development of data and not daily or weekly volatility. Domestic economic statistics have been good: not anything wonderful, but not anything terrible. The Fed likes steady, if slight, improvement. Although inflation at the producer level is still low, core Consumer Price Index came in around 2%, personal

#### \*\*Definition of Weighted Average Maturity and Weighted Average Life

WAM is the mean average of the periods of time remaining until the securities held in TexPool (a) are scheduled to be repaid, (b) would be repaid upon a demand by TexPool, or (c) are scheduled to have their interest rate readjusted to reflect current market rates. Securities with adjustable rates payable upon demand are treated as maturing on the earlier of the two dates set forth in (b) and (c) if their scheduled maturity is 397 days or less; and the later of the two dates set forth in (b) and (c) if their scheduled maturity is more than 397 days. The mean is weighted based on the percentage of the amortized cost of the portfolio invested in each period.

WAL is calculated in the same manner as WAM, but is based solely on the periods of time remaining until the securities held in TexPool (a) are scheduled to be repaid or (b) would be repaid upon a demand by TexPool, without reference to when interest rates of securities within TexPool are scheduled to be readjusted.

consumption expenditures and retail sales are robust, the labor and housing markets remain strong and even manufacturing has been healing. We don't think Brexit matters to policymakers as much as the improving statistics, and a "leave" vote wouldn't be that big of an influence anyway because it will take years to implement all the changes that would entail.

As for the volatility in early 2016 that many (far fewer now) saw as spawned by the Fed's lifting rates off zero, it wasn't the end of the world. The market lived through it. I think policymakers have good cover at this point for a hike. The data released in the next few weeks ahead of the June 15 FOMC meeting would have to be bad to push it later.

In the meantime, we continue to see good returns for prime portfolios. The spread between prime and government portfolios is about 22 basis points across the industry versus a historic average of about 12-13 basis points. This performance has caused some cash managers to hold off moving investments from prime products to govies and it might keep them from ever transferring a substantial portion of their cash. In addition, the London interbank offered rate is still ticking up, if slowly. Investors in prime portfolios are enjoying the yield spread for now. As to their feelings nearer to the Oct. 14 implementation of the new SEC money fund rules, no one knows for sure. But even as the industry endures many operational changes, much money spent and general stress, it might just be that cash managers keep calm and carry on.
