SUBJECT: Animal Adoption Event “Spring fling”.

1. Project Description

Copperas Cove Animal Shelter held a free monthly adoption event, “Spring fling”.

2. Background/History

The Copperas Cove Animal Shelter held a fun themed two-day adoption event, “Spring fling” on Thursday and Friday (April 9 and April 10, 2014).

3. Findings/Current Activity

The adoption event was highly successful with great achievements in getting the animals a new “forever” home. A total of 6 dogs and 2 cats were adopted to new homes during the event. (The total number of animals that have been actually adopted out from all 7 two-day adoption events is 76. The number has far exceeded the anticipated number of only possibly 6 animals per event.)

4. Financial Impact

If regular adoption fees had been collected, the total revenue from the event would have equaled \$1,520.00 for the number of adopted animals; however, the lost revenue amount is presumed to be equal to the cost of care, food, and possibly euthanizing the animals had they remained at the shelter.
