Solid Waste Transfer Station Improvements

Copperas Cove, Texas – The Solid Waste Transfer Station will undergo improvements to the tipping floor beginning Monday, April 25, 2016, and work is expected to last approximately 4-6 weeks. The City's priority will be to collect residential and commercial trash, followed by bulk, recycle and lastly brush as time allows. Residential and commercial trash will be collected as regularly scheduled, however delays should be expected as waste will be transported directly to Temple for disposal. It is important that citizens understand to leave their containers curbside, if contents remain uncollected, for pick-up the following day.

Regarding citizens who wish to dump at the transfer station, services will be limited however a set number of roll-offs will be available for collection. Items will need to be transferred from vehicles/trailers and into the roll-off containers. Once those containers are full, the transfer station will close for the day. In the event a resident or contractor plans to bring in a large load, we encourage them to first contact the Transfer Station at 254-547-4242 to ensure accommodations.

For additional information or concerns during this process, please contact Velia Key, Director of Finance, at vkey@copperascovetx.gov or 254-547-4221.
