

“The City Built for Family Living”

Finance Department

June 6, 2016

Mayor and City Council Members:

The Finance Department is pleased to submit the Unaudited Monthly Financial Report for the month of April 2016. We received 6 responses to the RFP for Audit Services for FY 2016, they will be evaluated by the Audit Committee.

Total revenues exceeded expenditures in all of the major funds of the City with the exception of the Golf Course Fund. The Golf Course operating expenses exceeded operating revenues by \$146,435. The fund collected \$26,627 of the budgeted revenues in April 2016. The General Fund continues to cover the deficit in the Golf Course, and City staff continues to monitor the expenses in the Golf Course Fund.

The key economic indicators provide some insight for the financial activity of the City. The Finance Department estimated the revenue for sales tax for the month of April 2016, because sales tax reporting experiences a two (2) month lag. Sales tax revenue collections Year-To-Date decreased by \$27,071 in comparison to the prior year. The number of active water utility accounts showed an increase of accounts in comparison to the number of active accounts as of April 2015. The unemployment rate in the City showed a decrease in comparison to the percentage as of April 2015. City staff will continue to monitor revenues and expenditures in all City funds and evaluate the impact of key economic indicators on the City's financial position.

We hope regular monitoring of the City's financial position will continue to provide the City Council with information that is useful for making sound policy decisions.

Respectfully submitted,

Velia Key
Director of Financial Services

Economic and Market Commentary: Yellen cages the hawks

April 1, 2016

The first quarter of this year saw plenty of ups and downs. Certainly the markets were volatile, but so was economic data, amid overall softening. March in particular saw individual reports and surveys volleying positive and negative news, causing investors and cash managers the sort of neck pain you get watching a tennis match from midcourt. Employment and auto sales remained robust, manufacturing was still poor; consumer inflation picked up, but personal consumption expenditure data came in low. And so on. We keep track of what we think are the most important statistics released every month and have seen the same number of surprises to the upside as to the downside. It was no surprise that the Federal Open Market Committee (FOMC) did not raise rates at its mid-month meeting, in the process dialing back the projections for hikes this year to two from the four it had envisioned in December.

Why then did several Fed officials start emitting hawkish screeches not long after the meeting concluded? A string of speeches suggesting the economy is looking good enough for policy action was enough to build in at least the probability of a move at the April meeting from a federal funds futures perspective, and definitely put June in play. That turned out to be fleeting as Chair Janet Yellen dismissed the hawkish tone

**Definition of Weighted Average Maturity and Weighted Average Life

WAM is the mean average of the periods of time remaining until the securities held in TexPool (a) are scheduled to be repaid, (b) would be repaid upon a demand by TexPool, or (c) are scheduled to have their interest rate readjusted to reflect current market rates. Securities with adjustable rates payable upon demand are treated as maturing on the earlier of the two dates set forth in (b) and (c) if their scheduled maturity is 397 days or less; and the later of the two dates set forth in (b) and (c) if their scheduled maturity is more than 397 days. The mean is weighted based on the percentage of the amortized cost of the portfolio invested in each period.

WAL is calculated in the same manner as WAM, but is based solely on the periods of time remaining until the securities held in TexPool (a) are scheduled to be repaid or (b) would be repaid upon a demand by TexPool, without reference to when interest rates of securities within TexPool are scheduled to be readjusted.

Daily Summary

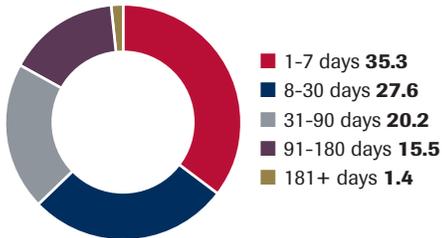

Date	Money Mkt. Fund Equiv. (SEC Std.)	Dividend Factor	TexPool Invested Balance	NAV	WAM Days	WAL Days

in her own dovish speech at the end of the month at the Economic Club of New York. Her words quickly pushed market expectations out at least until September, which is unfortunate because our portfolio management thinks we are on track and the target of June for the next hike is realistic. So far, Yellen has been a consensus builder behind the scenes, but here seemed to be a public rebuke to some members, including St. Louis Fed's James Bullard.

Perhaps the bigger question is why Yellen would be against a hike when she herself has referred to them at this point as normalization, not tightening? In a sense, the offsetting domestic data makes the case for continued normalizing—especially because many headwinds are from external issues such as low oil prices, the strong dollar and slowing in China. Yellen has tried to be a shepherd of the economy so far in her tenure, but this month she turned more to herding.

While the clock is paused on rate hikes, it is ticking loudly toward the implementation of the SEC money market reforms in fall. We've seen action by some fund families to convert prime money market funds into government funds. But direct investors seem to be taking their time to make a decision, choosing to stay where they are and not move to different products despite the impending regulations. Spreads have widened between prime and government instruments, and that may yet prove to convince institutional investors to stay in the prime space in spite of floating NAVs and gates and fees. We will obviously not know until closer to October.

90-Day Treasury Bill is a short-term debt instrument backed by the national government. These are used to collect immediate cash to meet outstanding obligations.

Any private investor can invest in a Treasury bill. The 90-Day Treasury Bill is a weighted average rate of the weekly auctions of 90-Day Treasury Bills.

The Fed drama and the plateauing of the London interbank offered rate (Libor) has led us to keep our weighted average maturities short, with WAM for prime portfolios in a 30–40 day range and government portfolios in a range five days further out. We have been buying more in the 3–6 month area for institutional products, not wanting to take the risk with longer-dated securities.
