

Statement on COVID-19

March 18, 2020

City staff and I continue to discuss and keep abreast of current information related to the COVID-19 pandemic. Just today we took part in a State & Local briefing call with White House Senior Administration Officials, as well as a conference call initiated by the Coryell County Emergency Management Coordinator. To date, there are NO confirmed cases of Coronavirus in Copperas Cove, nor is there confirmation of any City residents having been tested for the virus. I would like to remind our citizens to take care of themselves, as well as one another, and to continue following the guidelines set forth by the Centers for Disease Control (CDC). I also encourage you to disregard any rumors that you may hear and to instead follow the official City of Copperas Cove Facebook page for timely and accurate updates.

Bradi Diaz
Mayor, City of Copperas Cove

(Mayor Bradi Diaz, City Manager Ryan Haverlah, Fire Chief Michael Neujahr, and Deputy Fire Chief/EMC Gary Young have discussion following today's Coryell County EMC conference call)
