

The Texas Power Switch is a program that makes it easy to lower your electricity bill through group buying.

**With the approval of the City Council, the City of Copperas Cove is officially working with the Texas Power Switch to help residents save money on their electric bills.**

#### **What is the Texas Power Switch?**

The Texas Power Switch is a group energy switching program run by iChoosr, LLC and is licensed by the Public Utility Commission of Texas (certificate number 80419). It gives residents the opportunity to **join together and get a lower rate** on electricity by asking energy providers to bid on the group's business.

**There is no cost to the residents or the City for this service, nor does the City receive any compensation.** This is a service exclusively designed to help residents save money.

#### **Save hundreds on your electric bills per year**

Texans who switched to the 24 month plan in the last program are expected to **save an average of \$496 per year** on their energy bills. The more people that participate, the greater the chances are of obtaining a competitive rate. Please keep in mind, **there's no fee to participate or obligation to switch.**

#### **Here's how it works:**

- Have an electricity bill handy and visit [www.texaspowerswitch.com/copperascove](http://www.texaspowerswitch.com/copperascove).
- **Register for free before September 15th, 2020.** It only takes a few minutes.
- The Texas Power Switch will organize an auction among electricity providers and the lowest rate wins.
- Participants will receive a personalized offer email by **October 2nd, 2020** and then decide whether to accept the offer or not.
- Join the Texas Power Switch Facebook page ([facebook.com/TexasPowerSwitch](https://facebook.com/TexasPowerSwitch)) to follow updates about upcoming virtual info sessions.
- Please remember that re-registration is required for each program.
