

“The City Built for Family Living”

Fire Department

January 20, 2021

Citizens that desire to receive a vaccine against COVID-19 may begin signing up for the vaccine.

Citizens may go to any site in Texas regardless of where they reside to receive the vaccine. Currently, registration to receive the vaccine is limited to those persons who are in the 1A and 1B category according to the vaccine administration plan published by the Texas Department of State Health Services¹.

Sources locally that you may consider for receiving the vaccine are:

Coryell Health Clinic Gatesville

Website: <https://coryellhealth.org/services/covid-19/covid-19-vaccine-availability-and-information/>

Telephone: 254-248-6381

Email: covidvaccine@coryellhealth.org

Bell County Public Health

Website: <https://www.bellcountyhealth.org/>

Medical Arts Pharmacy Copperas Cove

Telephone: 254-547-4146

The availability of vaccines changes daily, and ultimately this will be a very lengthy process to get the vaccine to everyone who desires to receive it. All are asked to exercise patience and understanding with this process.

Sincerely;

Gary D. Young

Deputy Fire Chief | Emergency Management Coordinator
