Boil Water Notice Rescinded – Mountain Top Pressure Plane

Copperas Cove, Texas – On February 17, 2021 the Texas Commission on Environmental Quality (TCEQ) required our Copperas Cove public water system to issue a Boil Water Notice to inform our customers that due to an interruption in service, water from our system was required to be boiled prior to consumption. Necessary corrective actions have been taken and the City has provided TCEQ with testing results that indicate the water no longer requires boiling for residents in the Mountain Top Pressure Plane, effective immediately.

The City of Copperas Cove extends its heartfelt thanks to the affected residents for the cooperation and patience shown during this emergency situation.

Please reference the attached Boil Water Rescind Notice for additional information.

Questions or concerns may be directed to Corey Chambers, Water Distribution Superintendent, at cchambers@copperascovetx.gov or (254) 547-2416.

(Boil Water Rescind Notice Attached)
