## **DAMAGE ASSESSMENT SURVEY**

On February 18, 2021, Governor Abbott announced a statewide effort to collect property damage assessment data from the recent winter storm event. This information is being collected to help officials across the state gain an understanding of damages for individuals throughout the State of Texas.

This effort is to demonstrate the scale of this disaster at the local level. As such, the City of Copperas Cove is asking for your help with support from state representatives for the Texas Division of Emergency Management. With this effort, the State of Texas will be able to demonstrate and determine the total damage impact statewide.

The success of this effort will assist the City of Copperas Cove with eligibility for potential federal assistance programs.
