Solid Waste Updates

Copperas Cove, Texas – Due to weather delays in the transportation of trash from the City's contracted vendor to the landfill in Temple, we have an overabundance of trash at the Transfer Station. To help reduce the amount of incoming trash, the transfer station will remain closed to the public on Thursday, February 24, 2022. This may affect residential or commercial trash collections, they will run as scheduled for Areas 5 and 6 however once we reach capacity at the Transfer Station we will stop collection of Area 5 and 6.

Solid Waste will not collect any brush or bulk on Thursday, February 24, 2022. Area 6 is scheduled to be collected on Friday, February 25, 2022.

We are hopeful this situation will correct itself within the next day or so, and will provide an update if any further changes to the schedule become necessary. Thank you and we appreciate your patience on this matter.

Questions or concerns may be directed to Solid Waste at (254) 547-4242.
