

# Belton Water Plant Power Outage

May 8, 2022

At approximately 1:10pm this afternoon all electrical power was lost at the Belton Water Treatment Plant. This plant, operated by Bell County WCID 1 (WCID 1) provides water service to the City of Belton, City of Nolanville, City of Harker Heights, City of Killeen, City of Copperas Cove, Fort Hood Military Reservation and 439 Water Supply Corporation.

At this time WCID 1 is asking all customers to conserve as much water as possible until power is restored to the plant. Oncor officials have been notified as well as Electricians to troubleshoot inside the plant. The request for water conservation is hours following a 24 hour outage due to a break in a 48 inch transmission main. The delivery system had not fully recovered at the time power was lost. A system-wide boil water notice is expected if full power isn't restored within the hour.

For more information, please contact Ricky Garrett, Bell County WCID 1 General Manager at 254-749-5076.
