### **Boil Water Notice Lifted**

Copperas Cove, Texas – A boil water notice issued effective Sunday, May 8, 2022 for all City of Copperas Cove residents has been lifted effective immediately.

Residents should have boiled all water prior to consumption until water sampling results confirmed that no contamination occurred. Public notice will be issued through the City of Copperas Cove website, [copperascovetx.gov](http://copperascovetx.gov), by news release, now that the notice is officially lifted.

#### **TCEQ Required Notice:**

Due to conditions caused by water system repair, the Texas Commission on Environmental Quality (TCEQ) has required the City of Copperas Cove, PWS 0500001, to notify all customers at the above listed properties to boil their water prior to consumption. Children, seniors, and persons with weakened immune systems are particularly vulnerable to harmful bacteria, and all affected customers should have followed these directions.

A press release was issued and local news agencies were notified.

The City of Copperas Cove public water system has taken the necessary corrective actions to restore the quality of the water distributed by this public water system used for drinking water or human consumption purposes and has provided TCEQ with laboratory test results that indicate that the water no longer requires boiling prior to use as of May 10, 2022 at 4pm.

For all other questions or concerns, please contact Corey Chambers (Water Superintendent) for assistance at (254) 813-1789 or Public Works at (254) 547-0751.
