Notice of Water Service Interruption and Boil Water Notice

Copperas Cove, Texas – Due to a water main break and pressure loss in the Oak Hill Drive/Deer Flat area, the Texas Commission on Environmental Quality has required our system, (City of Copperas Cove/PWS 0500001), to notify affected customers to boil their water prior to consumption until further notice. A Boil Water Notice will be distributed to all affected customers, to include:

Oak Hill Drive
Deer Flat

Again, paper notices will be hand delivered to all affected customers

To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and making ice should be boiled and cooled prior to use. The water should be brought to a vigorous, rolling boil and then boiled for two minutes. In lieu of boiling, you may purchase bottled water or obtain water from some other suitable source.

When it is no longer necessary to boil the water, water system officials will notify you that the water is safe for consumption. Instructions to discontinue boiling water will be issued in the same manner as this notice.

Thank you for your patience and understanding. Questions regarding the matter may be directed to either of the following:

Water Department: (254)547-2416

Public Works Office: (254)547-0751
