

“The City Built for Family Living”

Fire Department

November 19, 2021

Residential Fire-1100 Block W. Business Hwy 190

Today at 4:16 AM, the Fire Department responded to a residence with a report of smoke in a home and noise being heard in the HVAC closet. Three Fire Engines, Two Ambulances, and One Supervisor responded. Units arrived on the scene to find flames inside of a single-family home. All persons had exited the home safely before the fire department's arrival.

The home's main living area sustained heavy damage, the other areas of the house suffered smoke damage. Smoke detectors were reported to be present and were credited with notifying the occupants of the fire, which helped them exit quickly. The family living in the home are now displaced but staying with relatives.

The fire was brought under control, and a fire investigation was completed. The fire was determined to have started in the HVAC closet.
